

W.O.W (Wild Outdoor Wonders) Summer Camp at Children's Tree House, Inc!

SUMMER
CAMP

- NEW PAVILLION CLASSROOM!
- DRAGONVILLE!
- WATER PLAY!
- HIKING!

Join us for 10 weeks of fun-filled adventures & educational activities from June 2 to August 15, 2025! We will have weekly themes, crafts, outdoor games, & much more!

**Don't miss out on the fun!
Reserve your spot TODAY as
availability is limited!**

Contact nickie@childrenstreehouse.org to add your child to the list for the week of their choosing. Registration paperwork will be sent out mid-April & needs to be returned by May 16.

Who can attend:

Rising 1st graders through age 10

Cost:

\$200 per week

Non-refundable deposit:

\$50 per week due at time of reservation (will be applied to weekly tuition)

Hours:

Monday-Friday 8:30am-4:30pm

Our mission is to connect children to nature while providing high quality care that helps build the foundation for their educational experience with nature.

Livin' Off The Land

June 2nd-6th

Campers will explore the natural world & learn how to safely identify edible plants, herbs, & wild foods while also developing a deeper connection to the natural world.

Survival Week

June 9th-15th

Are you ready for an action-packed, hands-on week of adventure?! Pack your map & compass to navigate the trails to Dragonville & build shelters. We will also show campers how to perform basic first aid & identify safe plants.

Pollinator Protectors

June 23rd-27th

It's a week of discovery & conservation where campers will gain a deeper understanding of the vital role of pollinators in our ecosystems, such as bees & butterflies. We will also learn how WE can help protect pollinators for a healthier environment.

Get Down & Dirty!

June 30th-July 3rd

It's MUD WEEK! International Mud Day is June 29th. Come celebrate with us as we "stir up some trouble" in the mud kitchen & "live like pigs" in the mud pit at CTH. Other activities will include painting with mud, mud sculptures, & mud slime!

Weird Science

July 7th-11th

"To invent, you need a good imagination & a pile of junk." - Thomas Edison

Put on your lab coat & let's blow things up! (Figuratively, not literally.) Campers will get the chance to engage in hands-on experiments that encourage curiosity, creativity, & critical thinking.

Wet & Wild Water Week!

July 14th-18th

"Bathing suit, towel, water shoes, & sunblock / RE-REQUIRED!"

EVERY day is WATER PLAY DAY this week! We'll beat the heat by enjoying a variety of water-based activities while developing teamwork & problem-solving skills (and maybe a popsicle or two!). Campers will also explore aquatic wildlife that thrive in & along the Potomac River.

Art In Nature

July 21st-25th

Ever use flowers to dye fabric? Or make your own paintbrush out of a stick & grass? Let your imagination run wild as we use various elements found in nature to get in touch with our creative side.

Wild Jobs

July 28th-August 1st

This week we will meet a variety of professionals working here at NCTC specializing in wildlife rehabilitation & conservation. The staff members will explain their jobs & have many cool exhibits on hand to show the campers.

Hip Habitats

August 4th-8th

There are MANY different kinds of unique habitats & living spaces for animals & insects in nature. Campers will focus on the importance of habitat conservation & learn the specific needs of the creatures that call these places home.

Symphony Of The Senses

August 11th-15th

It's time to put our senses to the test! It's a week of sensory exploration where every moment is a chance to see, hear, feel, taste, & smell the beauty of nature in ways our friends in the wild do.
